The City of Scappoose has asked the Quilters at Scappoose Senior Center to make a quilt to commemorate Scappoose's 100-year anniversary celebrated in 2021. Participants are asked to create a quilt block that represents Scappoose history and measures 8 ½ inches by 8 ½ inches. The blocks will be part of a quilt that includes a large copy of the Candle Logo created for the 100-year celebration. Include at least one of the colors in the Logo in your block. Please use only 100% cotton fabric. If you need help with fabric and /or a design, you can get support from the Quilters at the Senior Center. We would love to see your quilt blocks by the end of August. Thank you!

**Ps. We're making an app!**  
*Launching early July 2023.*

Listings added to the online directory will streamline into the app (so create yours ASAP). Follow us on Facebook or Instagram for updates @keepitlocalcc

## Scappoose Senior Center Update

Good things are happening at the center. Congregate meals are now being served on Wednesdays, from 11:30 am to 1:00 pm. The price is \$6.00. The kitchen is now called the Salt and Pepper Café.

Come early or stay later, we have pool and shuffleboard. Bring a friend or make friends. We are a great place to socialize. Heads up, Bingo is around the corner with its own menu!! Our next fundraiser is July 29<sup>th</sup>. A specialty BBQ with three types of hotdogs, plus chili dogs. Pop, chips plus trimmings will be available with seating inside or takeout.

If you haven't been to the Senior Center or it has been awhile, stop by to see the renovated interior and have a cup of coffee.

Clara Pell, President of the Board

## Water Conservation

It's that time of year when the sun comes out and temperatures rise. With that comes increased water use. Water is unfortunately not limitless. The City of Scappoose is asking for your help to conserve water this summer.

**You can help by taking a few easy steps:**

- Limit car washing
- Wash only full loads of dishes or laundry
- Avoid over watering of gardens and lawns
- Set sprinklers to not spray on concrete or asphalt
- Water during the morning or evening
- Reduce shower time
- Inspect your home for pipe, faucet, and toilet leaks
- Consider installing high-efficiency faucets

## Did You Know?

- A 10-minute shower uses 15 - 20 gallons of water
- One drip per second wastes 3,000 gallons of water annually
- Dishwashers use a fraction of the water than hand washing
- On average, 30% of household water is flushed down the toilet
- Visit [www.epa.gov/watersense](http://www.epa.gov/watersense) for more about saving water
